

Recycle and Trash signage catalog.

September 2021

re·cy·cle rē'sīk(ə)

convert (waste) into reusable material.

synonyms: reuse, reprocess, reclaim, recover.

1. return (material) to a previous stage in a cyclic process.
2. use again.

\ 'trash \

- 1 : something worth little or nothing: such as things that are no longer useful or wanted and that have been thrown away : junk, rubbish

DC Laser does not “resell” anyone’s items. We design and make our own products. This allows for maximum flexibility to accommodate custom requests.

RECYCLE & TRASH SIGNS & MEDALLIONS

The standard signs are made from a micro impact engraving acrylic. Available in a brushed aluminum finish, various metal finishes, woodgrain or solid colors. The thickness of this material is 0.020". The back is a 3M VHB adhesive for ease of installation.

The engraving acrylic is UV stable, chemical resistant and durable. It resists scratching and every-day commercial abuse.

When the surface is laser engraved it reveals the core color (black, white, more).
